

PUBLIC SEMINAR

# "SUSTAINABLE FUNDING FOR AUSTRALIA'S FUTURE HEALTH CARE"

**Professor Jim Butler** Director ACERH

Reforming hospital financing – a Medicare Hospital Benefit Scheme?

**Dr Francesco Paolucci** Research Fellow ACERH

Reforming health care financing – allowing opting out of Medicare with risk-adjusted subsidies

**Henry Ergas** Chairman, Concept Economics

Financing, Regulation and Competition in Health Care

**Tuesday 9 September 2008, 5.30pm**

The Finkel Lecture Theatre,

The John Curtin School of Medical Research Building,  
Building 131, Garran Road, ANU

Followed by refreshments in the foyer

Like many other countries, Australia is facing significantly increased costs in the future in maintaining the health of its people. In coming decades we will have more people suffering from chronic and debilitating health conditions such as diabetes, a higher proportion of older people with complex health care needs and burgeoning costs from new diagnostic and treatment technologies including pharmaceuticals.

Another motivation for concern with current health financing arrangements is duplication in health insurance coverage. Duplication arises because the Medicare coverage for public hospital services cannot be used for private hospital services. Those who purchase private health insurance therefore have to pay a premium that covers the full cost of private hospital services and not just the additional cost of those services. A large part of private health insurance coverage is therefore duplicate coverage while only a small part is supplementary coverage.

Australia already spends around ten percent of its GDP on health care and some estimates show this increasing to over fifteen per cent by 2020- an additional \$50 billion each year.

How will we pay for this?

Are there better ways of financing and providing health care?

This seminar will discuss financing options based on Australian and international research undertaken through the Australian Centre for Economic Research on Health (ACERH) at the ANU.

**THE SEMINAR IS FREE AND OPEN TO THE PUBLIC. RESERVATIONS ARE ESSENTIAL:**
